RESEARCH & TEACHING EXPERIENCE

Research Assistant

How Universities' Intellectual Property (IP) policies Influences Innovative Science and Technology, 2023-present. (Principal Investigator: Prof. Erin Leahey and co-PI: Prof. Jane Zavisca)

- Conduct comparative analysis of governance models, commercialization policies, and faculty support systems across four U.S. research universities.
- Collaborate on the project's theoretical framing, analytic strategy, and development of research questions.
- Collect and analyze institutional data from IP policies, technology transfer offices, surveys, policy documents, and interview transcripts.
- Prepare institutional case summaries and synthesize findings to support cross-site comparisons and broader conceptual insights.

Interdisciplinary Research Team Composition and Characteristics of Researchers, 2016-17

(Principal Investigator: Prof. Soohan Kim)

- Collected data on interdisciplinary research teams: participants; grants/fellowships; research topics; research process; and research outcome.
- Developed visualizations to identify key patterns across teams, such as disciplinary diversity, gender composition, and research topics.

Institutionalizing Negotiation and Policy Concertation Between Public Corporate Unions and the Government in South Korea, Summer 2017. (Principal Investigator: Dr. Jongsun Lee)
